Applicant's Statement of the Substance of the Examiner Interview

Sir:

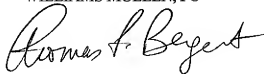

Applicant submits the present paper as required following the interview between Applicant's counsel and the Examiner on October 1, 2008 and in response to the Interview Summary issued by the Examiner on October 7, 2008. Applicant's counsel acknowledges and appreciates the Examiner's courtesy in discussing the present claims in view of the Office's determination that new actions should be issued in Applicant's co-pending application nos. 10/630,531 and 10/629,304.

Applicant had previously submitted pre-appeal brief requests for review in the '531 and '304 applications pointing to the inapplicability of various prior art citations to "MERS" references against the claims in the '531 and '304 applications. During the October 1, 2008 interview regarding the present application, Applicant's counsel requested that the most recent rejection of the

presently pending claims, based substantially on the same MERS citations, should be withdrawn for substantially the same prior art deficiencies as existed in the '531 and '304 applications.

The Examiner's statement in the Interview Summary that he will issue a new non-final action in the present application accurately summarizes the result of the interview.

Respectfully submitted,
WILLIAMS MULLEN, PC
